

**Tina McLean - Director**

**Certified Financial Planner, BMO Financial Group**

**I became involved with the REMS Foundation back in 2008 when I sat on the committee to plan the Emergency Services Ball. When we decided to give the ball a Hiatus I knew I still wanted to be involved with the Foundation. A Director Position had opened up on the board and I accepted the offer to become a voice for the new direction the Board was taking. I have sat on previous boards including Big Brothers and Big Sisters and volunteered many hours teaching English as a second language. I love being a part of this Foundation. Emergency services are at the core of every community. The fundraised dollars help our volunteer organizations to provide life saving emergency care and help educate our communities. The emergency workers on the ground have saved people I love. I am honored to support them.**
